

## **ERRATUM**

### **TO**

#### **SLS 1328 : 2008 – SPECIFICATION FOR FRUIT JUICES AND NECTARS**

##### **Page 3**

##### **Foreword**

Include the following before the second paragraph.

“Earlier the requirements of individual fruit juices and fruit nectars were covered under separate standards namely;

- SLS 274 : 1974 - Specification for Fruit Juices
- SLS 813 : 1988 - Specification for Mango Nectar
- SLS 927 : 1991 - Specification for Passion Fruit Juice
- SLS 957 : 1992 - Specification for Pineapple Juice
- SLS 1041 : 1995 - Specification for Mango Juice

While reviewing these individual standards, it was decided to amalgamate these in one comprehensive standard to make it user friendly. Consequently this new standard would supersede above mentioned standards.”
