Amendment No: 01 approved on 2012-03-28 to SLS 539 : 2010

**AMENDMENT NO: 01 TO SLS 539 : 2010
SRI LANKA STANDARD SPECIFICATION FOR ENAMEL PAINTS**

EXPLANATORY NOTE

This Amendment is issued to exclude the requirement for Cobalt because of the following reasons.

- When the Pb dryers are replaced by Co dryers, the manufacturers observed that Co limit exceeds 100 mg/kg. When the Co limit gets down to 100 mg/kg, it will effect on the drying properties of the product such as sticky on surface.
- A limit for Cobalt is not specified in BS EN 71 – 3 : 1995 British Standard for Safety of toys Part 3 : Migration of certain elements and in any International Regulations on Health and Safety of humans and environment.
