

**AMENDMENT NO : 1 TO SLS 98 : 1988
SPECIFICATION FOR DESICCATED COCONUT
(FIRST REVISION)**

EXPLANATORY NOTE

Low fat desiccated coconut differs from normal desiccated coconut only in respect of fat content. Other parameters remain same.

By examining the analytical data submitted by the Coconut Development Authority, this amendment is issued in order to incorporate partially defatted desiccated coconut as a low fat desiccated coconut product.

**AMENDMENT NO : 1 APPROVED ON 2008-02-27 TO SLS 98 : 1988
SPECIFICATION FOR DESICCATED COCONUT (FIRST REVISION)**

Page 4

Clause 3.7

Include the following sub-clause under clause 3.

3.7 Partially defatted desiccated coconut :

The product obtained after partial extraction of oil or milk from dried or fresh kernel gratings or desiccated coconut.

Page 6

Clause 5.7

Include the following sub-clause under clause 5.7.

5.7.3 For partially defatted desiccated coconut or low fat desiccated coconut, oil content shall be from 40 to 50 percent by mass when tested in accordance with Appendix D.
