

**AMENDMENT NO. 01 TO SLS 534 : 1981 SPECIFICATION FOR COLOGNE**

**EXPLANATORY NOTE**

This standard specifies a maximum ethanol content of 80 per cent (V/V). The aerosols have higher level of ethanol and also contain a propellant. As there is no provision for aerosols in the standard, this amendment is introduced to exclude aerosols from the standard. The conformity of the alcohol used as an ingredient to SLS 351 is also included to ensure its purity.
